EAST LANE GOLF

Bunker Basics Card

Splash out, every time

Greenside, you don't hit the ball — you splash the sand from under it. The sand lifts it out.

Greenside	How to play it
Setup	Open the face, dig the feet in, weight left
Swing	Hit 2 in behind, accelerate, finish high
Fairway sand	One more club, ball centre, pick it clean, 80%
Common fault	Deceleration — commit and follow through

Draw a line in the sand to rehearse your entry point (practice only).
