EAST LANE GOLF

Green Reading Card

Read break in three steps

Read every putt in three steps before you settle over it.

1. **Big picture** — from behind the ball, see the overall slope and where water would drain.
2. **Low side** — look from the low side to judge how much it breaks.
3. **Speed** — uphill firmer, downhill softer. Pace decides how much it turns.

Aim for an entry point into the hole, not the hole itself.
